WHAT DID WE DO?

In the evaluation process, we considered your competitors, where they are spending digital marketing dollars, what their analytics are telling us, where CLIENT should aim to rank in search and social spend. We also identified some alternative opportunities.

The report is organized by the questions that you and your team identified were important to evaluate and answer during this process.

HOW DO WE CREATE **CONTENT** WHEN APP ISN'T READY?

Social media content should align with both the brand goals and the target audience. A healthy mix of content subjects keep engagement and authenticity at the forefront of the strategy. Content must contain two of these elements: Curiosity, Urgency, Relevancy, Value, Emotional

PHASE 1: AUDIENCE GROWTH & ENGAGEMENT

STRATEGY

More than just a place to share photos and watch videos, social media provides our brand the capability and functionality to impact larger business objectives. As CLIENT launches in Des Moines, the first phase of the social strategy will be to introduce your unique value prop in short, exciting, and wide-reaching ways. Implementing a targeted advertising strategy to reach your key audience, including businesses, based on interests, purchase habits and travel behavior.

Moderating social media mentions for opportunities to enhance a current user's experience or attract new users and businesses will be key to this grassroots local movement. Integrating the unique, local experiences in the content and communication strategy will increase local engagement and awareness.

PHASE 2: LEAD GENERATION

STRATEGY

Social media conversion campaigns turn lead generation into an easy process. Phase two will add hyper-targeted campaigns based on location, interest and purchase history to drive traffic to a landing page into the strategy mix. Grab attention with a deal and encourage them to act. Leads will automatically be added to a customer database and delivered a sequence of triggered emails.

PHASE 3: CONVERSIONS & APP INSTALLS

STRATEGY

Moving into phase 3, people know you, but they're not customers yet. Get them to learn, follow and explore what you're offering. Get people to download the mobile app directly from the App Store, Google Play and Kindle Fire store. Leverage the lead list by sending sequenced email follow ups to drive action and educate on the value and features!
